

Hi Julie,

I have some comments regarding the draft updated MWELo document and I am attaching. Hopefully you are the correct person to send them to. If not please forward them to the appropriate individual(s).

I kept most of my comments to sections that dealt with soils and fertilization, my areas of expertise. Sorry if the grammar etc. is not up to par, but my time is very limited and I at least wanted to get you my thoughts.

If you have any questions regarding my comments feel free to contact me.

Naturally Yours,  
Living Resources Company
